

AFFIDAVIT OF FACT

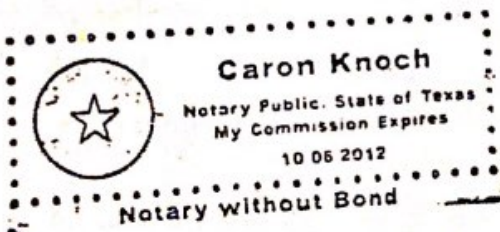

I ANDREW WAYNE TOLER JR, said to be of sound mind do hereby make this affidavit on my own free will. I am writing this statement in regards to a murder case that was wrongfully charged to DAEQUINJAMIN WILLIAMS, that I committed in April, 2004 around the Aldine bender and 59 freeway area. The victim was a white male who drove a big dulley truck whom I knew purchased drugs from DAEQUINJAMIN WILLIAMS in our neighborhood, and who also had a white female with him at the time, I was the shooter on the passenger side of three in the car that was involved in the incident on A side sreet directly off the freeway that led to the white dude being killed after an arguement about fake money and him also ramming the rear of the car I was in. I never stuck around to see if the white dude had been shot or even killed for that matter. More importantly I never Knew that DAEQUINJAMIN WILLIAMS had been charged with that crime and knowing that I did it. I take responsibility for my actions. I do not want to see an innocent person and friend in prison for somthing that I did when I was on drugs, and on a path to destroy my own life as well.

I'm Andre Emanuel I'm 19 yrs of age I am currently an inmate in the 701 N San Jacinto section of the Harris County Jail for reasons irrelevant to this letter. I have been here going on 20 months. During that time period I have been housed on different pods, floors, and buildings. Including the 7th floor in 701 N San Jacinto on H-poe where I encountered an inmate by the name of Andrew Toler. He goes by AJ. When I met him he was telling me and a few other inmates about how he had life ~~sentences~~ sentence for murder and being brought back on bench warrant because his homeboy was being accused for another ~~be~~ committed murder he committed saying it didn't matter because he already had life but when people starting telling him how dumb he was for trying to admitt to it because he got away and that he could get the Death penalty he start switching his story saying that the ~~be~~ homeboy

offered to pay him to take the blame  
and admitt he really did it. Then  
he started braggin about how everything  
happened on his case and other crimes
